

2+2 Degree Plan

Bachelor of Business in:
 Accounting, Business Analytics, Economics, Finance,
 Human Resource Management,
 Management, Marketing, or Supply Chain Management

How 2+2 Works

- The 2+2 is a four-year plan that leads to a Bachelor of Business (B.B.) degree at WIU. Students will fill out applications for both schools, consult the advisors, faculty and catalogs from both schools for specifics. This completion guide is designed to promote graduation in four years by taking courses at both Black Hawk College (BHC) and Western Illinois University (WIU). This guide assumes students have met all course prerequisites required by BHC and admission/audition requirements for WIU.
- Upon completion of the first two years of requirements at BHC, students will receive an Associate of Arts (A.A.) degree. Upon completion of the final two years' curriculum requirements, students will receive the B.B. degree with a major in see list of major options on subsequent page.
- A minimum cumulative grade point average of 2.00 should be achieved by the junior year and to graduate from BHC. Students will have to earn a 2.5 Cumulative GPA at WIU to meet College of Business graduation requirements. The B.B. degree is available at the WIU Macomb or Quad Cities Campuses or online (see the WIU course grid below for availability of specific majors); the AA degree is available at the BHC Quad Cities or East Campuses or online.
- Students following this 2+2 plan will complete a minimum of 120 total credits.
